- Python
- JavaScript
- node JS

Languages

English(fluent)

Nepali(native)

Sakar Manandhar

Aspiring computer engineer seeking an opportunity to apply and grow technical skills through an internship.

EDUCATION

+2 Science   2018-2020

Golden Gate College, Kathmandu
I did my +2 in science and was in Physics group.

Computer Engineering   2021-2025

Tribhuvan University, Kathmandu
Completed a four-year Computer Engineering program (BCT) at Kathford International College, affiliated with Tribhuvan University.

- Focused on computer systems, architecture, and programming fundamentals.
- Gained practical experience in software development through academic projects.

PROJECTS

Completed two projects for my bachelor's degree during my BCT semester. Four of us had to work together to build a project that included reports, a demo, and a presentation. We also had to defend the project at each stage.

- Developed a web application named **Kotha Khoj** as part of a minor project. The front end was created using CSS and the EJS template. Used Node.js with Express for server-side logic. MongoDB was utilized for the database integration.
  Project Link: Kotha Khoj Web App
- Developed **Hand Gesture Detection For Mute and Deaf** for major project with YOLO v5 model.
- Completed several additional Python projects, including a Snake game, an automated birthday wisher bot, and a state name labeling quiz game.
